

I Think I Like U 2 (Cafe Demo - Acoustic Version)

Jamaica

Since mine I will never have to leave him
My friends say I should never have to make things clear
I think I like you too
I think I like you too
So tell me what's next, I think I like you too Now is the time when I'm trying
Tell me more and I'll try so hard
We could stay here for a long time I'm not likely to forget but I don't know your name
We shoot hills but I don't remember when
I know you like me too
I know you like me too
So I tell you what's next, I know you like me too Now is the time when I'm trying
Tell me more and I'll try so hard
We could stay here for a long time She was never pretty, she was only young
She was never pretty, she was only young
She was never pretty, she was only young
She was never pretty, she was only young Now is the time when I'm trying
Tell me more and I'll try so hard
We could stay here for a long time Now is the time when I'm trying
Tell me more and I'll try so hard
We could stay here for a long time.
