

# The Light Pours Out of Me

Peter Murphy

Time flies, time crawls like an insect  
Up and down the walls  
The conspiracy of silence ought  
To revolutionize my thoughtThe light pours out of me  
The light pours out of meThe cold light of day pours out of me  
Leaving me black and so healthyThe light pours out of me  
The light pours out of meIt jerks out of me like blood  
In this still life heart beats of loveThe light pours out of me  
The light pours out of me
