Fight 'til Dying

Sunrise Avenue

I see the look in your eyes
I know it's time to rise
Hey babe I know you
I know we will be fine

I feel the beat in your heart
It makes me strong tonight
Hey babe, you know me
You know it is our night tonight

We can reach little higher
We can tear down the sky
If something comes on the way we face it as one
Through the tears and the clouds
Through the times when they doubt
If something comes on the way we fight till dying

I've seen the faces of the ones
Who walk away from light
Hey babe I know you
I know they ain't our kind

We leave the fear behind
And trust the way we feel inside
Hey babe, we both know
We know it is our night tonight

Cause we can reach little higher
We can tear down the sky
If something comes on the way we face it as one
Through the tears and the clouds
Through the times when they doubt
If something comes on the way we fight till dying [Repeat: x3]
