

All Up To You

Serena Ryder

you fall in
you fall in to pieces
do you really think jesus
is gonna make it right
you're so lost
you don't even know it
and you cant help but show it
as you sit before the light
and never turn the page
is this your world or is it your cage
its all up to you
you believe
you believe what they tell you
you're about what they sell you
and you shut your mouth
what is the point
to all of your money
when you're still going hungry
and your heart is sold out

end up to the rage
is this your world or is it your cage
it's all up to you
Oh no no no whoa
Oh no no no whoa
And your heart is sold out
end up to the rage
as you sit before the light
and never turn the page
oh are you ready
pack your things
we're going all the way
is this your world or is it your cage
it's all up to you
Oh no no no whoa
Oh no no no whoa
