

# Union Jack

## Magellan

Magic land so far away - was  
It worth the voyage in these days?  
The lives of soldiers thrown away  
In medieval claims to yesterday...

Off the starboard bow/in the  
Heat of the night/we visualize  
Apocalypse in the fire fight,  
The parliament says "it's necessary"  
But birmingham calls you home/  
The neighborhood, the family, the  
Mind begins to roam.

Ocean currents flowing/taking  
Vessels to a war/whether right  
Or wrong it's a moot point/as we  
Hit the shore/a former king's  
Residence/in the district of the  
North/the crown of england is risking  
All for sovereignty at stanley port.  
The mission. the mission. don't forget  
The mission.

But there's no way out/i don't want  
To stand here and fight anymore/  
Please - couldn't we find a better way,  
I just saw somebody die.

Waving the flag as he fell to the ground -  
While the locals rejoiced in liberation.  
So take those ice cold islands back -  
Almighty union jack/a thousand  
Victories will be behind you/in royal  
Fashion the colonies, the land swept up  
In the naval destruction out at sea.  
No wire to the u.k. - no moral  
Ground can prepare us to die at  
Falkland sound.\*

So take those ice cold islands back  
Almighty union jack/a thousand  
Victories will be behind you/when will  
We learn to cease the fire/my friends  
In modern times - we need a better way.

Because this place belongs to all of us  
Responsibility lies within each of us  
The revenge we seek will not conquer us...

Listen.

This place belongs to all of us  
Responsibility lies within each of us  
One earth, one mind can save us  
My friends the end is near us.
