

Don't Bother Me

The Blakes

Don't come 'round here looking for my sympathy
Don't come 'round here looking for my prayers
 You spent the eighties in a trance
 Yeah you led us all on a merry dance
 Now it's sad to say that I don't care
You were always advocating power games
 You were always gonna be a star
You made your money, had your fun
 Made a video 'bout how it's done
 Ain't put it in my vcr
 So far
 Dreams fall into disrepair
 There's a change in the air
 Your lies
 Will lead you to despair
 Don't bother me
(castles in the sand slip through your hand)
 Don't bother me - I don't give a damn
 Don't bother me
(try to understand it's in your hand)
 Don't bother me

Well no amount of liquor, babe, can drown the blues today
 No amount of pills can ease the pain
When the body electric and the vision thing
 Is all it takes to make the people sing
 Let's hope we don't get fooled again
 My friend
 Dreams fall into disrepair
 There's a change in the air
 There's a girl who says she cares
 And her love
 Will leave you standing there
 Don't bother me
(I can't change your mind when you're so blind)
 Don't bother me - I can't spare the time
 Don't bother me
 (takes an ocean wide to turn tide)
 Don't bother me - love can't be denied

Don't bother me
(castles in the sand slip through your hand)
Don't bother me - I don't give a damn
Don't bother me
