

Two By Two

Tony Bennett

Two by two by two
Everybody is two by two by two
Everybody is him and her
Everybody is he and she
Everybody is on and on
Two by two and cookie makes three One has none to lose
By myself I can say and do what I choose
But it's funny when all is said and done
One and one make one
Have you heard the news
The world goes on by twos One has none to lose
By myself I can say and do what I choose
But it's funny when all is said and done
One and one make one
Have you heard the news
The world goes on and on and on and on
The world goes on by twos The world goes on and on and on
The world goes on by twos
