

# No Hassle

Robyn

I take the Busta Town  
Sitting in the back and talk to no one  
I got the high heels on  
I go, I'll dancing all by my own  
People are pushing by  
Somebody always try to cut in 9  
Soon as I get inside  
I loose myself in the blinding lights Now what  
Your jaw has dropped  
Until the music stop, you know  
I still run this thing like a dancehall queen  
I really don't want no hassle I got them hypnotize  
I get another shout out on the mic  
Peep me at all you like  
I came to dance, not to socialize  
The beating goes boom boom boom  
Stain kane drops with the (yeah)  
People all gather around  
Back into the beat, the queen will be proud Now what  
Your jaw has dropped  
Until the music stop, you know  
I still run this thing like a dancehall queen  
I really don't want no hassle I got down low like she wow  
She wow wow wow  
But my hips will slow like she wow  
She wow wow wow Now what  
Your jaw has dropped  
Until the music stop, you know  
I still run this thing like a dancehall queen  
I really don't want no hassle
