Kickoff

A.Youngin

24 hours nigga
Same old shit but different waves
Same old shit but different waves my nigga
Ei

Some niggas make memes Others make millions
I go get the cash and they think I'm harsh
My flow old school your shit ain't cool
I go hard on beats just like spelling bee
I think I need a teacher naa that's alright
I'm gonna make it through it Yeah I will survive
Did you come with heat
Belts on bumpy ride huge ass tide homicide
From this side I killed the beat

We go get the meat I got no time for that shit ei
Every time I see my niggas on the streets I be thinking of defeat
Babe I'm stuck with you even if you sinking Imma sink with you
Until it's my turn I'll be clapping for my homies happily
That's how I be coming
If I started with you imma die with you
Yeah I'm stuck with you imma fuck with you
I started last year the year ended sober
At least a thousand people know my name
To stay relevant is the problem
Ups and downs I'm a man accept them all
I want that gold and not a hoe
I'm chasing glory and nothing more
At times I'm scared but fuck that shit I shoot my shots
I'm
O2future
I wish you knew that I'm not a common loser
Dumbass nigga you a lazy rapper
Gotta rap now I might die later
You need cash I need more than that bruh
I need prayers and some luck to cope with hate
They said I'm fake
I've got a vision yeah my mission is to get it
Imma make them bags

And then make up for all I lost And I know It'll cost
Yeah I'm ready accept my faults That's plus my heart
My brothers know that I just messed up
I'm tryna tame my fears And not to shed a tear
And when I buy my first beamer
Haters will rest in peace
Haters rest in peace
Haters rest in peace
RIP

RIP haters
RIP
RIP
