Flipside

Nitin Sawhney

I could be in more than one place
Everyday I could wear a new faceIf Nixon never lied
And Martin Luther never died
On the flipsideOn the flipside you can do anything
On the flipside, winter, autumn, spring
Let the flipside bring a second wind
To change your worldOn the flipside you can do anything
On the flipside, winter, autumn, spring
Let the flipside bring a second wind
To change your worldThe hands of time are changing
My world is rearranging
So many pasts to futures
That my history's never seenOut comes change
But I don't know
Still everywhere the sunlight glows
For every one tomorrow brings another dayOn the flipside you can do anything
On the flipside winter, autumn, spring
Let the flipside bring a second wind
To change your worldOn the flipside you can do anything
On the flipside, winter, autumn, spring
Let the flipside bring a second wind
To change your worldOn the flipside A to B
Should've been more like a Y to Z
Every time I open my eyes I still see
On the flipsideMy soul is a shadow of pain
No thrills of bills to bury shame
Oh, I love to be alive on the flip slick sideOn the flipside you can do anything
On the flipside, winter, autumn, spring
Let the flipside bring a second wind
To change your worldEncrypted recipes to reconfigure easily
The mess we made on world, side B
Encrypted recipes to reconfigure easily
The mess we made on world, side BThe truth could set us free
And no more blame for you and me
On the flipsideThe truth could set us free
And no more blame for you and me
On the flipsideOn the flipside you can do anything
On the flipside, winter, autumn, spring
Let the flipside bring a second wind

To change your worldOn the flipside you can do anything
On the flipside, winter, autumn, spring
Let the flipside bring a second wind
To change your worldReality
Is on the flipside
Happiness is
On the flipsideNo more pain
On the flipside
The truth speaks
On the flipside
