Moribund Town

Kellermensch

Around here we never change heart
and at night we do the skeleton dance
First we hurry to the graveyard
where the bones will keep us al in a trance
A spider is spinning out of boredom
and the web it stretches all around town
You best be carefull not to tremble
or you'll end up living six feet undergroundGet out of your town... Get out of your mind...
These streets hide all the memories you don't want to find
Get out of your town... Get out of your mind...
When you keep putting jewels in the dirt they don't shineAt the moment we have dark nights
and our dreams are made of stone and steel
From the pharmacy we get medicine
but this town is like a wound that won't heal
On my prescription there is a crowbar
I'll need a crowbar to open my heart
Some of us really need an alibi
or an easy way of saying goodbyeGet out of your town... Get out of your mind...
These streets hide all the memories you don't want to find
Get out of your town... Get out of your mind...
When you keep putting jewels in the dirt they don't shineIt's a fine place to pray for a miracle
When you know you are living in a moribund town
It's a fine place to pray for a miracle
Just remember to gonna get out of it
