

The Need of You

[Beverley Knight](#)

Would I want, what I got, what I need
Would I want, what I got, what I need I got a canvas, paint and brushes too
What I need is the memory to paint a picture of you
Love at a distance, my world's torn in two
And nothing that I got could ever compare
To the need of you, to the need of you I know the journey, I know the distance and the time
But what I need is you beside me to make my drive sublime
Love at a distance, my worlds torn in two
And nothing I got could ever compare
To the need of you, to the need of you Would I want, ain't no little one time thing
What I got, is a bond a fire love
What I need is to have you closer to me
'Cuz all this spare and time it don't ease my mind no What I want, is for you to remember me
What I got, is the fear that you won't
What I need, is to bring our minds together So we're synchronized when we fantasize
Oh, love at a distance
Oh baby, nothing that I got could ever compare
To the need of you
