

# Kisses in the Moonlight

George Benson

Oh, what a night  
Now don't you feel like flyin'  
Everything's right  
You can't blame me for tryin' Love, look up there  
The stars are all aligned  
Now don't you think it's time, ho, ho, ho Closer to me  
I want to feel your breathing permanently  
Cause darling, I'm not leaving here  
Till I get what I've been waiting for  
Some twenty-five or more  
That's all I need, oh Kisses in the moonlight, sugar  
That would make this night complete  
There have got to be  
Oh, kisses in the moonlight, sugar  
Fly away with me Most of our days  
We get so busy runnin'  
Lost in a maze  
We've got no time for fun and dreams Every now and then  
A dream is real  
And this is how it feels, yeah, yeah For once in your life  
Forget about tomorrow  
Tonight is the night  
Our worries seems so far away You'll hold me in your arms  
So tenderly  
I only want a taste  
Of your sweet, sweet, ooh Oh, kisses in the moonlight, sugar  
That would make this night complete  
There have got to be  
Oh, kisses in the moonlight, sugar  
Fly away with me  
Oh, fly away with me Don't let this night end right now  
Cause in your arms is where I need to be  
Oh, oh, oh  
Yeah, yeah  
Kisses in the moonlight  
And you know  
Oh, oh, oh  
Ooh Oh, kisses in the moonlight, hey  
That would make this night complete

There have got to be  
Oh, kisses in the moonlight, sugar  
Fly away with me Oh, kisses in the moonlight, ho, baby, ho  
That would make this night complete  
There have got to be  
Oh, kisses in the moonlight, sugar  
Fly away with me Oh, kisses in the moonlight
