

# Driven to Insanity

## Cephalic Carnage

It's sad when kids take their lives  
In the act, kill 13 peers  
What drives a mind to kill? Must have been really catastrophic  
To hate violently stockpile guns  
Inflicting revenge gruesomely that oblivious day Who would foresee media spectacle  
Enshrouded in tragedy  
Victims will beg and plead  
Nation in shock, copy-cat's mockUpscaled high school  
Killing of the rich can happen anywhere  
Even in your neighborhood  
Children are snappingPeach through annihilation  
It kind of sucks  
Innocent people died  
What made this happenCondolence to the bereaved  
Deranged adolescents  
Or victims as well  
Society could learn from thisListen to your kids  
Two die brains go splat
