

Lose Your Mind

Blue Meanies

lose your mind maybe you should transform yourself into a radio wave selling all your fantasies to ears of every
age satellite eyes see the faces antenna thighs take you places it's easy if you lose your mind see you later to my
mind goodbye to your mind one in a million ways to make the grade one in a million ways to rearrange one in a
million ways to satisfy you maybe you're full color glossy plastered on the front page giving details of your life
so we can all feel your rage everyone's got heartache stories everyone's got some glory it doesn't mean you've
lost your mind see you later to my mind goodbye to your mind your mind lose your mind making a criteria
making the hysteria it's easy if you lose your mind lose your mind
