

# Passed Out

## Limp

you're on your way passed out and not aware not scared of anything don't =  
matter anymore you're one to say life is a fragile toy don't play too =  
hard with it don't drop it on the floor cause you said this is all you =  
can stand and your vices are all that you have and it's time to rethink =  
what you thought that i'd never know you don't understand and here we go =  
again can't take away can't hide or cover them these scars are permanent =  
they make you one of us can't drink away can't swallow all your pills =  
there's not a chemical to fix a jaded mind cause you said this is all =  
you can stand and you vices are all that you have and it's time to =  
rethink what you thought that i'd never know you don't understand and =  
here we go again get up off the floor and i'll try to ignore that i saw =  
you this way
