

# Casey

## Christy Moore

Driving in your car with the windows down  
And the beat up stereo  
Struggle with this town  
'Cuz you love to hate it but hate it to let it go  
And we're all alone  
And so tired of being underrated  
So don't take me home  
'Cuz I feel alive when you come and save me  
A yellow car  
Speeding down the Southside freeway  
We will rewrite this movie  
Make it end like we want it to  
And Casey when you go, can you come and find me?  
Wanna be beside you, when you leave this town  
I've been waving goodbye, pretending not to cry, I wanna be someone  
If you take me away all the pain will change into a memory  
Of when we were amazing  
1989, summer had hit but it was not moving  
What is it with this town?  
Every time we win, it just feels like losing  
We were never gonna fit in  
I was a mixed up kid and you were my sanity  
In a yellow car  
We don't even have to go far  
'Cuz that song you're playing  
Sounds like peace on the radio  
And Casey when you go, can you come and find me?  
Wanna be beside you, when you leave this town  
I've been waving goodbye, pretending not to cry, I wanna be someone  
  
If you take me away all the pain will change into a memory  
Of when we were amazing, when we were amazing  
I know things will change, Casey stay the same  
Take me away  
Oh, we don't have to go far  
Yeah, we don't have to go far, I know  
Oh, Casey when you go, can you come and find me?  
Wanna be beside you, when you leave this town  
I've been waving goodbye, pretending not to cry, I wanna be someone

If you take me away all the pain will change into a memory  
Of when we were, when we were  
Casey when you go, can you come and find me?  
Wanna be beside you, when you leave this town  
I've been waving goodbye, pretending not to cry, I wanna be someone  
If you take me away all the pain will change into a memory  
Of when we were amazing, when we were  
Driving in your car with the windows down  
And the beat up stereo, oh  
I wanna, I'm gonna, I wanna be someone  
I wanna, I'm gonna, I wanna be someone  
I will run to you, I will come to you  
I will run to you, I will come to you  
So come on and get me, so come on and rescue me, oh  
I will run to you, I will come to you  
I will run to you, I will come to you  
Coming through the sky like a satellite  
Like a radio wave, a meteorite
