Charles de Gaulle

Letts

I'd like to thank the Charles de Gaulle
Thank the police and dog
A quarantine that changed my world
When our life became a swirlWe got some fears we need to break
And I know that you're afraid
Perhaps you're young and I am old
I'll still love you when I'm bones
I'll still love you when I'm bonesDon't walk away from me
Don't walk away
Lor I love you a thousand ways
Don't walk awayWhen the gift becomes unwrapped
I'll breath you in, you'll breath me back
Let's watch this thunderstorm roll in
From our hammock, we melt inNo more fears of what won't last
Hangman in a bubble bath
Spray a chance on your sweet scar
Wrap me in your velvet heart
Wrap me in your velvet heartDon't walk away from me
Don't walk away
Lor I love you a thousand ways
Don't walk awayDon't walk away from me
Don't walk away
Lor I love you a thousand ways
Don't walk away
Lor I love you a thousand ways
Don't walk away
