Ghost Page

Red Vox

I've been writing on your ghost page, babe
I've been waiting by your grave
Once upon a time I watched you fall
It was written on your wall.

Rain hell, rain it on top of me
'Cause right now, no one is stopping me
Rain hell, rain it on top of me
Right now, nothing is stopping me.

Rain hell, rain it on top of me
'Cause right now, no one is stopping me
Rain hell, rain it on top of me
Right now, nothing is stopping me.

I've been writing on your ghost page, babe
I would check it everyday
we'll be together for the end of time
I'll be scrolling through your drive.

Rain hell, rain it on top of me
'Cause right now, no one is stopping me
Rain hell, rain it on top of me
Right now, nothing is stopping me.
