Part Of It

Black Tide

I've been working with adhesives
Chains and locks and ropes with knots to tether
But nothing's sticking to the pieces
I can't seem to hold it all together
But you should know
'Cause that explains
Why it all just fell apart
It's not the end of the world, just you and me
We're a part of it, everyone
We're a part of it, everything
And if a nightmare ever does unfold
Perspective is a lovely hand to hold
Well, I've been trying to ingest this
But everything to me just seems like nonsense
And I'm not sure if I can get it
I guess it's time for me to grow a conscience
To combat the laps
That explains
Why all of this simply collapsed
It's not the end of the world, just you and me
We're a part of it, everyone
We're a part of it, everything
And if a nightmare ever does unfold
Perspective is a lovely hand to hold

It's been forever since I've gone
But I'm the Cusack on the lawn
Of your heart
It may be forever 'til I go
But before then you should know
That I could tear that place apart
I could tear that place apart
I swear this to you
I wish that this was not the truth
But it's something that you fell into
Crawling out is hard for you
I'm not so sure it's what you wanna do
Not convinced it's what you wanna do
It's just the weight of the world

Giving out under the string
And we're a part of it, everyone
We're a part of it, everything
And when a nightmare finally does unfold
When a nightmare finally shows
It's not the end of the world, just a calamity
And we're a part of it, everyone
We're a part of it, everything
And when a nightmare finally does unfold
Perspective is a lovely hand to hold
