

# Still Here

## Snoop Dogg

Ayo, K-Dot? You up on that new Snoop Dogg?  
That nigga shit banging!  
I ain't fuckin' with none of these new niggas,  
but that nigga, Snoop Dogg? That nigga back!  
Right, right, he a wild lil' nigga  
But that's where you're wrong at lil' homie  
Big Snoop never left! I'm still here  
Jah, rasta!  
Yeah, shada-di-da-da  
Sugar (hahaha)  
Yah, man (hahaha)

Check it Didn't think I would last, I'm adrift on a draft  
While I'm flippin' my craft, hold a gift to the gab  
Cre-i-zippin' my rag see, hop on the grass  
Peep-pop on these suckers tryna avoid the clash  
But if I must I must, let me raise my glass  
Tryna move on off and put you on up some fresh game  
Or how to maintain, sustain and gangbang  
You never change, you stay the same  
It sound easy, don't it? I put a lot on it  
I be Dogg on it, I really want it  
Achieve at the speed that you work at  
And these is the G's, we the throwbacks  
Battlecat on the track  
There is just no way you can call that a comeback  
We done that, we run that, from the top back, middle to the front  
We only here to give you what you want  
Blaze it, one! When your times is being rough and no one wants to be near you  
You know that I'll be there, I'll be right there  
And when your luck is so bad and no one really wants to hear you  
Just turn me on, turn me out and let me play  
Lada-di-di-da-da! Horse and a carriage  
Sports in a marriage, all in a day's work  
Show you how these plays work  
Longevity, heavenly blowing kush heavily  
Rearrange my melody, no more felonies  
Shout-out to my mama Beverly,  
and my grandmother the elderly, should be upheld to the utmost  
Dorothy Tate, half the reason why I'm great

Mississippi the state  
Let me shake back, break back to the beat  
And keep supplying y'all with more heat for the street  
Snoop Dogg, Snoop Lion, it's all the same  
One thing's for sure, this shit bangin'  
Achieve at the speed that you work at  
See these is the G's and we the throwbacks  
Battlecat on the track  
There is just no way you could call it a comeback  
Been there done thatWhen your times is being rough and no one wants to be near you  
You know that I'll be there, I'll be right there  
And when your luck is so bad and no one really wants to hear you  
Just turn me on, turn me out and let me play  
Lada-di-di-da-da!Lada-di-di-da-da!  
Yeah mon, Snoop Lion  
Snoop Dogg, hehe!  
I'm still here!
