There's a Revolution

Got A Girl

Say it with me, Say it coming with me
Through the back door shakin up the third floor
Move your mind is turning on a dime
So play it for us arriving at the chorus
Say, there's a revolution on the way
Make it with me, are you coming with me?Say it with me, Say it coming with me
Through the back door shakin up the third floor
Move your mind is turning on a dime
So play it for us arriving at the chorus
Say, there's a revolution on the way
Make it with me, are you coming with me?There's no time to be satisfied
No more days left to look behind
Where the line with the moon will rise
Intertwine why we'll reignite
Say you want to, tell me that you want to
Take the ride, the wave that's rushing through you
Never mind the ones that came before us
Metamorphis arriving at the chorus
Say there's a revolution on the way
Make it with me, are you coming with meSay you want to, tell me that you want to
Take the ride, the wave that's rushing through you
Never mind the ones that came before us
Metamorphis arriving at the chorus
Say there's a revolution on the way
Make it with me, are you coming with meThere's no time to be satisfied
No more days left to look behind
Where the line with the moon will rise
Intertwine why we'll reignite
Take the high road it is hard to travel
Take the high road the world it just unravels
In your head so tighten up your strings and
Put on the pressure, make a diamond ring
Well hey, there's a revolution on the way
Make it with me, are you coming with meTake the high road it is hard to travel
Take the high road the world it just unravels
Good intentions crowding up your sidewalk
Good are they when brought into the light
Oh hey, there's a revolution on the way
Make it with me, are you coming with meThere's no time to be satisfied

No more days left to look behind
Where the line with the moon will rise
Intertwine why we'll reigniteThere's no time to be satisfied
No more days left to look behind
Where the line with the moon will rise
Intertwine why we'll reignite
