Killing Me

Little Dragon

Mood swing
Have another drink
What's that you said?
I see a side of you
Pass the eyes and throughSticks and stones
Lucky clover
This carousel's taking me home
Back of a taxi used
Ten more blocks to cruise, yeah, yeahNow that I'm home
Outside's in here
No longer with you
You created a space
I'll take my rocket ship
And get the hell out of this
Nothing that I'm gonna miss
You're killing me
You're killing me
You're killing me
You're killing meTime, hurry
Heal my every wound
Don't burden me
Lead me to symphonies
I'm like a masterpieceGold beam
Dazzle every step
Time will bring
Sweet offering
Brand new
Nothing there to lose
Yeah, yeahNow that I'm home
Outside's in here
No longer with you
You created a space
I'll take my rocket ship
And get the hell out of this
Nothing that I'm gonna miss
But you're killing me
You're killing me
You're killing meYou're killing meNow that I'm home
Outside's in here

No longer with you
You created a space
I'll take my rocket ship
And get the hell out of this
I'm makin' a spider howl
Watch you killing me
