# Head In the Clouds

## Shamir

Got nothing left to lose
Just wanna make my next move
With all these worries on my back
And that's where they'll stay 'til I'm in the black Cadillac
Can't waste no time
Just wanna take this moment, it's mine
And leave the past behind
Just wanna be great
Is that such a crime?Got my head in the clouds
And I'm never coming down
Got my head in the clouds
And I'm never coming downJust wanna see my name
Somewhere in the hall of fame
So on the day that I die
There'll be something to remember me by
It's my own right of age
Don't need help
Don't need to be saved
I'd rather drown alone
And make the ocean my ownGot my head in the clouds
And I'm never coming down
Got my head in the clouds
And I'm never coming down
