Purple

California Wives

Itâ€™s all purple blue
On the top of the world, staring straight at a picture of you
And youâ€™re standing in the middle, now your face is getting thinner
Now your face is getting thinner

And now sheâ€™s presently white
Standing next to a friend saying things that you never shouldâ€™ve said
If I keep lookinâ€™ at you, will you cut me in two?
Cut me in two
Will you cut me in two?
Cut me in two

I see you purple blue
Weâ€™re filling out all the life living space, other people like you
And when weâ€™re standing in the middle, will you break it til you quit â€˜er?
Will you break it til you quit â€˜er?
Will you break it til you quit â€˜er?
Will you break it til you quit â€˜er?
