

To Drink the Rainbow

Tanita Tikaram

Can you tell me?
How you see it?
My eyes dreamt it
My eyes sent you a thousand pieces'Course I love it
It makes me cold
Amongst the ashes
Drinking the rainbowCan you tell me
How to turn
The very feelings, the very feelings
That make me burnThe very music I have heard
Inside your heart
To drink the rainbow, I try very hard
To drink the rainbow, I try very hardYou should want me
To take along
The very seasons, the very seasons
I've waited onThe very music I have heard
Inside your heart
To drink the rainbow, I try very hard
To drink the rainbow, I try very hardCan you show me
Where it leads
The very feelings, the very feelings
That make me bleedThe very music I have heard
Inside your heart
To drink the rainbow, I try very hard
To drink the rainbow, I try very hard
To drink the rainbow, I try very hard
