

If I Could Have My Way

Benny Mardones

Well, I've got things to do to pass the time
And I've got friends that I know are really mine
I've got money just enough to see me through
But the only thing I really want is youIf I could have my way, I would love you
 Like nobody's loved you, if I could have my way
 I would love you like nobody's loved you
 Like nobody's loved youWell, I've got theories to think about
 And I've got the answers if I need a way out
 I got lovers if I'm ever in the mood
But the only thing I really want is youIf I could have my way, I would love you
 Like nobody's loved you, if I could have my way
 I would love you like nobody's loved you
 Like nobody's loved you
