

# Blues

## Wardance

Woke up in the morning  
And I found that you're gone  
Just a note "I am sorry"  
And you left me alone  
I can hardly remember  
What happened last night  
Guess we went to a party?  
Did we get in a fight? I need you so badly  
Baby why did you go? Woke up in the morning  
I've had too much to drink  
I don't know where my pants are  
I'm still too drunk to think  
You took my beer with you  
In the fridge is the phone  
I'm trying to call you  
Why aren't you home? I need you so badly  
Baby why did you go? Woke up in the morning  
And I found that you're gone  
Just a note "I am sorry"  
And you left me alone  
I can hardly remember  
What happened last night  
Guess we went to a party?  
Did we get in a fight? I need you so badly  
Baby why did you go?
