The Losing Kind

John Doe

I don't know that I ever knew you
I don't know that I ever knew you
But you say you can see right through me.The moon is bright and the road is clear
The moon is bright and the road is clear
Did you just say the end is near?You said you gave me all your kisses
You said you gave me all your kisses
Now you're fed up 'cause you feel kiss-less.There's tune in my heart and blood in your eyes
There's tune in my heart and blood in your eyes
I wish we were the losing kind.I wish we were the losing kind.
