

# Android

## Zamarro

Changing sides, follow lines  
Frequencies decide  
Who designed me this way  
And who's around to play? Adjust my gain  
Replace my fear with pain  
I'm on a wave  
Select any game to save Will we fight it? Will we play?  
Will we start all over again?  
Well we better do something  
I'm losing this game again  
The same old game Time to change, I'm corrupted  
Change my disk, erase me, reboot, delete  
I've had enough, my trash bin is full  
Now empty my head, please give me the chance New start, restart  
Empty pages  
Make some changes  
Install everything new I'm sick of you, hunting my thoughts  
I don't wanna be your android anymore New start, restart  
Install everything new  
Erase me, reboot, delete Will we fight it? Will we play?  
Will we start all over again?  
Well we better do something  
I'm losing this game again  
The same old game Adjust my gain  
Replace my fear with pain  
I'm on a wave  
Select any game to save
