

# Politics of Humanity

## The Suicide Machines

My blood runs cold when I think of the condition  
Of human suffering and untold pain  
The atrocities of war make my stomach turn  
Falling tears, on the earth like burning acid rain Why has it been so long since anyone's noticed?  
It's been so long since anyone's cared  
We watch and wait as the world keeps turning  
Hoping our greed won't consume us all The world today is like a closed in box  
For those who have nothing but war torn streets  
Shine a ray of hope a light into their lives  
Hide deep inside your heart, may they find their relief Why has it been so long since anyone's noticed?  
It's been so long since anyone's cared  
We watch and wait as the world keeps turning  
Hoping our greed won't consume us all Hate can never cease by hate in this world  
And this I know, so I'm gonna give you these words  
And I hope that you'll listen to me  
(Give you these words)  
'Cuz hate never ceases by hate in this world  
(In this world, no) Turn about face and face the faces of death  
In a place where men die of disease and starvation  
Psycho warfare, politicians tool  
Won't let them pass the torch to the new generation Why has it been so long since anyone's noticed?  
It's been so long since anyone's cared  
We watch and wait as the world keeps turning  
Hoping our greed won't consume us all Why has it been so long since anyone's noticed?  
It's been so long since anyone's cared  
We watch and wait as the world keeps turning  
Hoping our greed won't consume us all Why has it been so long?
