

(It's The Way) Nature Planned It

The Four Tops

Baby, don't fight it
My lovin', baby
(backing na-na-na's)

Do you know how long I'm dreamin'
Of a reason it grows?
You may ask me all these questions
But darling, no one knows
It should be clear, I really love you
Don't ask me why; I just do
Do you ask the Lord who loves you?
Why He makes the sky clear blue

[Chorus]

(It's the way, it's the way Nature planned it
We were meant, we were meant to stay together
It's the way, it's the way Nature planned it)

Oh don't ask me how long I'll love you
When you're gone, my heart aches; I'll never never leave you
Girl, all my life, for you I'd wait 'cause it's the way

[Chorus]

Don't fight it, baby
I'm jumpin' earth
(backing na-na-na's)
It should be clear, I really love you
Don't ask me why; I just do
'Cause it's the way (it's the way, it's the way Nature planned it)
Like the stars & the sky & the beautiful heaven

(It's the way, it's the way Nature planned it
We were meant, we were meant to stay together)
Oh oh yeah, do you know why it rains?
(It's the way, it's the way Nature planned it)
Something no one can explain
(It's the way, it's the way Nature planned it)
We were meant, we were meant to stay together
Why does a flower grow?

(It's the way, it's the way Nature planned it)
Why does the river flow?
(It's the way, it's the way Nature planned it)
We were meant, we were meant, we were meant to stay together
Why does it rain?
(It's the way, it's the way Nature planned it)
Why do I feel this way?
(It's the way, it's the way Nature planned it)
