

Subtle Hustle

Clutch

Back again with a quickness, pick it up, pick it up
Master arithmeticness, light it up, light it up
I got the heat in both feets, snake handler's hands
Come back with slickness and do it all againMy subtle hustle, smooth as mother's butter
I let it ride on, I let it ride onNow I'm the media's darling, pick it up, pick it up
An international phenomenon, light it up, light it up
I cause eclipses with a wave of the hand
Let them hang in ellipses and do it all againMy subtle hustle, smooth as mother's butter
I let it ride on, I let it ride onI got your number I steal your thunder
I got your mother's maiden name tattooed on my arm
I drive out daemons, can I hear an Amen?
Now say my name lay hands on screaming heathens and do it all againMy subtle hustle, smooth as mother's
butter
I let it ride on, I let it ride on
