

Gravemakers & Gunslingers

Coheed and Cambria

Advisory - the following lyrics contain explicit language:

So draw little piggy better watch out for number one
(I think there's bad wind blowing today)
You better put up your shudders
'Cause Lord knows now I ain't stopping till the worst gets alive
Little story don't you creep out that fucking door
(It's best that you don't go walking through there)
Now who's the don't bother knocking?
'Cause God knows I am not stopping till you breathe none (Hey)
What I miss are one and the same
Just give it the push while I kick-start
(There's just no time for this)
Come on, it's just the hurt I'm looking for
Don't wanna live no more
You've got the gun, I've got the bullets
Don't wanna live no more
Well baby, be my lover
Go on and pull that trigger
You're the sin of the city, now repent for the wrong you've done
(Not sorry for this, not sorry at all)
You're a snake under cover
The wolf of another, just this bad motherfucker
Leave a long trail of nothing, little bad boy with gun in hand
(It's best that you don't go walking through there)
Now who's the calm boy you're popping?
'Cause God knows I am not stopping till you breathe none (Hey)
What I miss are one and the same
Just give it the push while I kick-start
(There's just no time for this)
Come on, it's just the hurt I'm looking for
Don't wanna live no more
You've got the gun, I've got the bullets
Don't wanna live no more
Well baby, be my lover
Go on and pull that trigger
Well keep marching to the top of this tower
As God isn't at home, no
There's nothing in the way that could stop us
It's your time to go (Hey)

What I miss are one and the same
Just give it the push while I kick-start
(There's just no time for this)
Come on, it's just the hurt I'm looking for
Don't wanna live no more You've got the gun, I've got the bullets
Don't wanna live no more
Well baby, be my lover
Go on and pull that trigger I don't wanna live no more
Go on and pull that trigger
Wanna live no more
My lover, go on and pull that trigger
