Lil Boosie and Webbie

(oh) Girl give me that
(oh oh oh) Girl give me that
Girl give me that (pussy)
(oh oh oh) Girl give me that
Girl give me that (pussy)
(oh oh oh) Girl give me that there
Girl give me that pussy
(oh oh oh) Girl give me that You know you want it
Girl don't act like you don't want it
Girl I want it just as bad as you do
And look see I can tell from this lil' vibe
You got me feeling that you dig me
Boo I'm digging you too
You wanna be one of the chosen few
Then gon jig up in this motherfucker
Maybe me and you can do it big up in this motherfucker
Sit you in a crib where you can chill
Don't have to move a muscle
Give you some be good now you be good
Daddy gon' hustle
Come here let me Whisper in your ear
I gotta tell you something
Listening to this song kinda make a nigga want something
Did some daydreaming
Now I'm fiending like I'm on something
Girl don't hold it from me
Cause right now I'll be don strong on ya
I ain't the type to ruin your life
By running game and throwing your dreams
Get in your brain suit your game
Ease your pain and show you things
Sit you on some leather seats while blowing green
And switching lanes
Girl stop playing games let me beat it out the frame[Repeat: x4]
Girl give me that pussy
Girl give me that
Girl give me girl give me that there She five foot seven a hundred and thirty nine pounds
Thirty six twenty four thirty eight pretty fine brown
Bad lil' broad I ain't seen her in a minute

Since the All-Star game and I'm still tryin' to hit it
 Got a baby for this nigga that I used to sell things
 He caught a fed case and he ain't leave her no change
 She sold all his jewels she sold all his cars
 Now she dancing in the shaker club stripping for the stars
 Sliding down the pole slow drop it to a split
 Pussy popping on a handstand man she the shit
 She still looking tight though
 Still built right though
 Run my game right and after the club
 She might go back to the telly with me
 Shake her jelly with me
 Let my people bust on her face and her belly with me
 I got Lil Webbie with me and he ain't hating
 We some players in this bitch so baby stop hesitating[Repeat: x4]
 Girl give me that pussy
 Girl give me that
 Girl give me girl give me that there Now I can tell from your size that that pussy is fire
 So I'm here and willing to give you whatever it require
 For you to lay down on your back and then open your thighs
 Long sharp deep and wide have you rolling your eyes
 You a big fine horse I had no choice but to try it
 Look like it's worth a couple G's but ain't some shit I buy
 Let me whisper in your ear again I ain't gon' lie
 I might share a lil' meal just don't tell nobody
 Look you know you want it
 Girl don't act like you don't want it
 Girl you want it just as bad as I do
 But check this out
 You gon' be wishing that you been gave me your number
 By the time I finish rumbling with you
 Wop, Wop get loose, let's take this shit to the room
 And you just keep yourself excited til we get to the room
 'cause I've been rocked up since I met you
 I'm ready to give you the blues
 Don't stunt now take off your shoes
 Don't act confused you know what time it is[Repeat: x4]
 Girl give me that pussy
 Girl give me that
 Girl give me girl give me that there
