Degenerates

Hysterian

Do you think that you're made of gold?
Invincible?
You think you can handle it?
You will learn from this
I'm telling you, friend
This is something worth fighting for
Does it not seem contradicting
To sit back and watch them take more?
Caught like a deer in their headlights
You're stuck now, you're bound by your fear
I suggest you break free
Or you'll forever be damned here
We were merely degenerates waiting for you
To come sweep us off of our feet
They keep marching on, spilling blood like savages
Taking lives while your cigarette burns, burns
You can't tell me, my friend
That that wasn't worth dying for
Gave it all and received nothing
May as well have let them take more
Dig deep, find the courage to speak
Are you really still bound by your fear?
This is all just a dream now
You can't speak and you're damned here
We are merely degenerates waiting for you
To come sweep us off of our feet
They keep marching on, spilling blood like savages
Taking lives while your cigarette burns, burns
This is our fight for freedom
This is our way of saying
This is our day
We've been waiting
For this one day all our lives
This is nothing short of predictable
Stop holding your head down, give it up
And get a hold of yourself now or give it up
You're like a deer in the headlights
You've given up to save your life
We've been waiting

And we're waiting all our lives
This is nothing short of predictable
Stop holding your head down, give it up
Get a hold of yourself now or give it up
You're like a deer in the headlights
You've given up to save your life
(Find the will to save your life)
