

# Degenerates

## Hysterian

Do you think that you're made of gold?  
Invincible?  
You think you can handle it?  
You will learn from this  
I'm telling you, friend  
This is something worth fighting for  
Does it not seem contradicting  
To sit back and watch them take more?  
Caught like a deer in their headlights  
You're stuck now, you're bound by your fear  
I suggest you break free  
Or you'll forever be damned here  
We were merely degenerates waiting for you  
To come sweep us off of our feet  
They keep marching on, spilling blood like savages  
Taking lives while your cigarette burns, burns  
You can't tell me, my friend  
That that wasn't worth dying for  
Gave it all and received nothing  
May as well have let them take more  
Dig deep, find the courage to speak  
Are you really still bound by your fear?  
This is all just a dream now  
You can't speak and you're damned here  
We are merely degenerates waiting for you  
To come sweep us off of our feet  
They keep marching on, spilling blood like savages  
Taking lives while your cigarette burns, burns  
This is our fight for freedom  
This is our way of saying  
This is our day  
We've been waiting  
For this one day all our lives  
This is nothing short of predictable  
Stop holding your head down, give it up  
And get a hold of yourself now or give it up  
You're like a deer in the headlights  
You've given up to save your life  
We've been waiting

And we're waiting all our lives  
This is nothing short of predictable  
Stop holding your head down, give it up  
Get a hold of yourself now or give it up  
You're like a deer in the headlights  
You've given up to save your life  
(Find the will to save your life)
