

# Torn

Letoya

A part of me wants to leave you alone  
A part of me wants for you to come home  
A part of me says I'm livin' a lie  
And I'm better off without you  
A part of me says to think it through  
A part of me says I'm over you  
A part of me wants to say goodbye  
A part of me is asking why  
A part of me wants to leave  
But a part of me wants to be here with you  
And every time I think that we're over and done  
You do something that gets me back lovin' you  
And you got me just torn  
Torn in between the two  
'Cause I really wanna be with you  
But something's telling me I should leave you alone  
Leave you alone, leave you alone  
And you got me just torn in between the two  
'Cause I really wanna be with you  
But something's telling me I should leave you alone  
Leave you alone, leave you alone  
What hurts the most is when we started out  
It was cool, it was everything that love's about  
But something happened 'cause I'm feeling so burned out  
Because I can't understand you now  
(I just can't understand you now)  
A part of me says it's all my fault  
A part of me says he ain't what you want  
A part of me says to get my bags  
A part of me says I can't do that  
A part of me wants to leave  
But a part of me wants to be here with you  
And every time I think that it's over and done  
You make me fall back in love  
You got me just torn  
Torn in between the two  
'Cause I really wanna be with you  
But something's telling me I should leave you alone  
Leave you alone, leave you alone

And you got me just torn in between the two  
?Cause I really wanna be with you  
But something's telling me I should leave you alone  
Leave you alone, leave you alone  
So many times I, I was ready to go  
So many times I, had my foot out the door  
So many times I, I thought to give him a chance  
Thought he'd be a better man  
Now I'm sitting here and I'm so confused  
?Cause I keep fighting myself for you  
I don't know how much more I can take  
But I can't feel this way  
You got me so torn!  
Torn in between the two  
?Cause I really wanna be with you  
But something's telling me I should leave you alone  
Leave you alone, leave you alone  
You got me just torn in between the two  
?Cause I really wanna be with you  
But something's telling me I should leave you alone  
Leave you alone, leave you alone  
You got me just torn in between the two  
?Cause I really wanna be with you  
But something's telling me I should leave you alone  
Leave you alone, leave you alone  
And you got me just torn in between the two  
?Cause I really wanna be with you  
But something's telling me I should leave you alone  
Leave you alone, leave you alone  
You got me just torn in between the two  
?Cause I really wanna be with you  
But something's telling me I should leave you alone  
Leave you alone, leave you alone  
And you got me just torn in between the two
