You Are Here

NEEDTOBREATHE

I could give just one more chance
If I thought that there would be romance
Seas of everlasting grace
Fall down upon this sinners face tonightI see clearer all I wanted all I wanted
The time is right know it
You are here
And You find out all the pieces
The time is right I know it
You are hereOne last reason to exist
Is the thought that you'd get over this
Words forever left unchanged
And from Your lips the sinners saved tonightYou find out all the pieces
Give me away now, take me down
You find out all the pieces
Give me away now, take me away
