Know the Score

Borracho

Turned on the tv screen and what did i see
a video fuckin collage of our atrocities
change my life
turtles getting cut open by the poachers
knife how can i just look at that and not
Sometimes my life is lucky and
Something else i saw that made
sometimes it's not
i'm lucky enough to do something more
me want to boff
it was a video of an elephant tusk
why do us human beings have to wreck
yeah of the pain, yeah that it brings
they were chopping it off
everything without a fukin thought
yeah that it brings, yeah that it brings,
yeah that it brings

while they were chopping it off
Something else i saw that made
me want to boff
it was a video of an elephant tusk
why do us human beings have to wreck
everything without a fukin thought
yeah of the pain, yeah that it brings
yeah that it brings, that it brings,
yeah that it brings
that it brings brings brings
yeah that it brings
brings brings
yeah that it brings
yeah that it brings
yeah that it bringsthe pain that it brings
