

# A Minor Detail

## Hidden in Plain View

Step up to the plate to play the game  
Save yourself and quit to play it safe  
Step up to the plate to play the game  
Save yourself and quit to play it safe  
And the boy's got skills, the girl's got notion  
Smart enough but he lacks devotion  
Your reasons rhyme and your rhymes keep scheming  
But it's not enough so just keep on dreaming alone  
And I know you'll, you'll never make it on your own  
And I know you'll never get it right  
You only take this so far, then leave it all behind  
So tonight, I'm making up my mind  
Before we take this too far and leave it all behind  
So rise up to the occasion cause your robbing schemes,  
no explanation, got minor details filling major gaps  
And your memory, so just trace your footsteps  
Back to where this all started, before you got yourself broken-hearted, now  
Just keep it right there cause you'll, you'll never figure it out  
And I know you'll never get it right  
You only take this so far, then leave it all behind  
So tonight, I'm making up my mind  
Before we take this too far and leave it all behind  
Yeah, I'll miss you when I'm gone, I'll sing you a sad song  
tonight  
And I'll miss you when I'm gone, I'll sing you a sad song  
One more chance to get this right, one more chance to get it right  
One more chance to get this right, so never, get it right  
I know you'll never get it right  
You only take this so far, then leave it all behind (get it right)  
So tonight, I'm making up my mind (get it right)  
You know you make this so hard to leave it all behind  
Step up to the plate to play the game  
Save yourself and quit to play it safe
