

Little By Little

UB40

Poor man's anger rising
The ostrich hides his head
Soon the red blood will be boiling
And blue blood will be dead While we say
Little by little by little
And stone by stone
Rich man's mountain
Comes crumbling down Poor boy sleeps on straw
The rich boy sleeps in bed
That fat boy fills his belly
My poor boy's a dead While we say
Little by little by little
And stone by stone
Rich man's mountain
Comes crumbling down The rich man drives his car past
The poor man on bare feet
Oh, that rich man do get what he wants
The poor must know defeat Little by little by little
And stone by stone
Rich man's mountain
Comes crumbling down Little by little by little
And stone by stone
Rich man's mountain
Comes crumbling down Little by little by little
And stone by stone
Rich man's mountain
Comes crumbling down Little by little by little
And stone by stone
