The Doctor

Cheap Trick

Pay some attention
Want to get it right
Ooh, how about you?
Mind's under pressure
Happens every night
Ooh, let it go
Love is like a knife
It cuts deep and wide
And I, I, I oughta know
Lay your hands on me
I prescribe a pill
Ooh, how about now?
Tension's a buildin'
Need to let it out
Ooh, let it go
Love is like a knife
It cuts deep and wide
And I, I, I oughta know
Call me the Doctor
Makes you feel good
Make it feel better now
Everybody should
It's my own opinion
It's my point of view
If you really need it now
Call me the Doctor, Doctor Feel Good, hey
I make house calls
In the middle of the night
Ooh, to get you right
Come a little closer
Is it pleasure, is it pain?
Ooh, I've got the cure
Love is like a knife
It cuts deep and wide
And I, I, I oughta know
Call me the Doctor
Makes you feel good
Make it feel better now
Everybody should

It's my own opinion
It's my point of view
If you really need it now
Call me the Doctor, Doctor Feel Good, hey
Love is like a knife
It cuts deep and wide
And I, I, I oughta know
Call me the Doctor
Makes you feel good
Make it feel better now
Everybody should
It's my own opinion
It's my point of view
If you really need it now
Call me the Doctor, Doctor Feel Good, hey
Call me the Doctor
Makes you feel good
Make it feel better now
Everybody should
It's my own opinion
It's my point of view
If you really need it now
Call me the Doctor
Call me the Doctor, Doctor Feel Good, hey
