

Hell To Pay

Taylor Hawkins & The Coattail Riders

Advisory - the following lyrics contain explicit language:

Underneath it all, you can see it shine
And it's beautiful
If we have to fall to realize
You have everything And you get scared
And you don't know where to go
And there's nothing left to hold on to
The hand you feel is mine
The hands you feel are mine Trouble seems to call every time
Life gets bearable
Do you know how to crawl
Through a fire? It's a miracle And you get scared
And you don't know where to go
And there's nothing left to hold on to
The hand you feel is mine
The hands you feel are mine Take your time
When you got hell to pay
Here's our chance
To give it all away one more time Take your time
When you got hell to pay
Here's our chance
To give it all away one more time Trouble seems to call every time
Life gets bearable Take your time
When you got hell to pay
Here's our chance
To give it all away one more time Here's our chance
To give it all away one more time
Here's our chance
To give it all away one more time Here's our chance
To give it all away one more time
