Cherry Tree

å¤§æ©‹å¥½è¦•

Take us down and all apart
Cherry tree
Lay us out on the table
Your sharp alright
But no one is asking so leave it alone
Leave it alone, can we?
No one is asking so leave it alone
Leave it alone, can we?
Loose lips sink ships
Don't look at me. I'm only breathing
Don't look at me, I'm indiscreet
Don't look at me. I'm only breathing
Don't look at me, I'm indiscreet
Your sharp alright

But no one is asking so leave it alone
Leave it alone, can we?
No one is asking so leave it alone
Leave it alone, can we?
Loose lips sink ships
Can we show a little discipline?
Can we show a little discipline?
Can we, can we?
Loose lips sink ships
Can we show a little discipline?
Can we show a little discipline?
Can we, can we?
Loose lips sink ships
