Hello Sailor

Consumed

I never thought I'd feel this good
With or without you
I'm thinking sometimes that I should
Try a bit harderDid you say you've been away?
Welcome back, it's good to see you any day
Did you say you've been afraid?
It would have happened anywayI beat myself up everyday thinking about it
I got it wrong in every way, can't live without itThankyou, thankyou
Thankyou but it would have happened anyway
It's best left unsaid
It would have happened anywayDid you say you've been away?
Welcome back, it's good to see you any day
Did you say you've been afraid?
It would have happened anywayThankyou, thankyou
Thankyou but it would have happened anyway
It's best left unsaid
It would have happened anywayIt's like running underwater
