

Regenerate

Fear Factory

Remove all the damage
Material debris
Remove scar tissue
Decayed and diseased
Establish a connection
Matter to the mind
My self replication
Run for your life Look in my eyes
Look in my eyes
It's not over
I will survive
I will survive I regenerated now
I've finally found new ground
Breathing new life now
I will regenerate Replace for enhancement
Destroy permanence
Born again and faithless
Shatter the resilient
I have got the power
To effect a change
Amplify my body
Don't fade away Look in my eyes
Look in my eyes
It's not over
I will survive
I will survive I regenerated now
I've finally found new ground
Breathing new life now
I will regenerate You can't kill me! I regenerated now
I've finally found new ground
Breathing new life now
I will regenerate
New life today
