

# Saturday Morning

## Eels

Saturday morning  
Whos gonna play with me?  
Six in the morning, baby  
I got a long, long day ahead of meThe parents are sleeping soundly  
The neighbors are dead as wood  
Im getting up and coming over  
We gotta rock the neighborhoodNothings ever gonna happen round here  
If we dont make it happen  
Sleep away the day if you want to  
But I got something that I gotta doIts Saturday morning  
And this aint the place for me  
Im giving you warning, baby  
We got a whole big, fat world to seeNothings ever gonna happen round here  
If we dont make it happen  
Sleep away the day if you want to  
But I got something that I gotta doIts Saturday morning  
And whos gonna play with me?  
Six in the morning, baby  
I got a long, long day ahead of meSaturday morning  
Saturday morning
