16

Den Sorte Skole

Tell me if you want to say something,
Because I'm sitting here looking for clues.
16 days I've been turning upside down,
Thinking of you.Don't know if it was your intention,
But I'm lost, and feeling confused.
16 days since you left my life I'm still looking for you.
I feel high... just being with you.
Now I'm low... don't know where to go.I'm just like you,
Don't know what to do.
I'm caught here in the middle of a life,
I can't live but I want to.
Im just like you,
Dont know what to do.
Im caught here in the middle of a life,
I can't live but I want to.
Dont know how to do it though.Dont want to be caught in the middle,
But I dont want to be left on my own.
16 weeks of emotional static, it makes me feel like Im hollow.
I just want to get your attention,
But I know that you're looking away
16 weeks since you left my life I'm still looking for you
I feel high just being with you,
Now Im low,
Dont know where to goIm just like you
Dont know what to do,
Im caught here in the middle of a life,
I cant live but I want to.
Im just like you
Dont know what to do,
Im caught here in the middle of a life,
I cant live but I want to,
Dont know how to do it, though.
Dont know how to do it, though.I wonder, wonder, wonder what you're doing, where you are.
I wonder, wonder, wonder what we could have been.
I wonder, wonder, wonder what youre doing, where you are.
I wonder, wonder, wonder what we could have been.
