World Long Gone

Scars On Broadway

Sometimes, I said sometimes
I go crazy like I'm crazy
It takes patience, lots of patience
Then it's over, fucking overI look at the sky faded
I read the starsMaybe I don't know
How many people are starving
In this world long goneSometimes, I said sometimes
I go crazy like I'm crazy
It takes patience, lots of patience
Then it's over, fucking overI look at the sky faded
I read the starsMaybe I don't know
How many people are starving
Maybe I don't know
How many people are starving
In this world long goneI look at the sky faded
I read the starsMaybe I don't know
How many people are starving
Maybe I don't know
How many people are starving
In this world long gone
